

WE MAKE IT  
INSTALL IT &  
GUARANTEE IT

ONLY TERMIMESH CAN SAY THAT

**TERMI**  
MESH

ORIGINAL TERMITE BARRIER

## WORKING WITH YOU & THE TOUGHEST MESH IN THE BUSINESS

---

**FOR OVER 20 YEARS ONE COMPANY HAS WORKED WITH AUSSIE BUILDERS NATIONALLY TO GIVE THEM THE WORLD'S BEST TERMITE PROOF MESH.**

Since 1992 we have been working side by side with Aussie builders to develop the most effective and robust termite proof mesh. Our installations work for the builder, the trades and the homeowner.

The only ones who aren't happy are the termites.

We've also been working hard off-site. The Termimesh System has constantly been refined and improved to ensure the most technically advanced mesh is always available to our clients. End of story.

Actually, it's just the beginning...

## WE GIVE BUILDERS REAL BENEFITS & GENUINE PROTECTION

---

**ONLY ONE MESH COMPANY HAS A PROVEN COMMITMENT ACROSS AUSTRALIA TO PROTECTING THE REPUTATION OF BUILDERS AND THEIR CLIENTS.**

We never take our clients or their reputation for granted. At the end of the day it's all about protecting your homes from termites. That also means protecting you.

Homeowners like the Termimesh System because it's highly effective and offers the reassurance of the best guarantee. We look after owners long after the handover of their home.

We stand by our product, deal with homeowners direct and handle any issues. Our superior product and ongoing back-up makes for happy homeowners and happy builders.

## WE MAKE OUR OWN SUPERIOR GRADE MESH

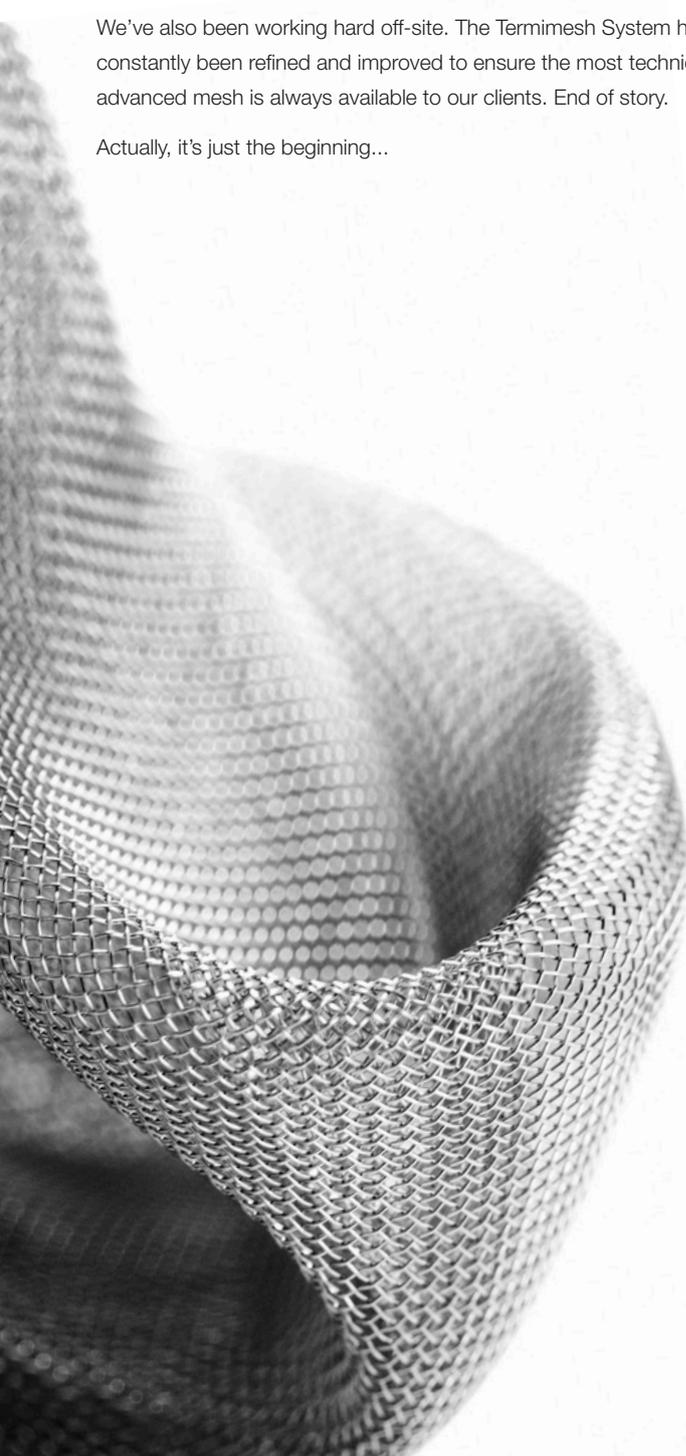

---

**ONLY WE HAVE DIRECT INVOLVEMENT FROM THE PRODUCTION OF THE STAINLESS STEEL ALLOY TO WEAVING THE MESH AND FINAL ON-SITE INSTALLATION.**

We use our own proprietary stainless steel specification which is a superior alloy to that specified in AS 3660.1 Section 6. Stainless steel alloys differ markedly. Our choice contains an abundant quantity of appropriate elements to provide the necessary resistance to the harsh chemicals used on building sites.

Other mesh may not be what is claimed and may not be capable of ensuring ongoing protection. The failure of a single strand of steel in the harsh construction environment can render the system vulnerable.

Our mesh is the best because it's produced 'in-house' by an associated company that is ISO 9001-2008 certified by Bureau Veritas.

**ONLY  
TERMIMESH  
CAN SAY  
THAT**

## **WE DELIVER DECADES OF REFINED ON-SITE EXPERTISE**

---

**ONLY YEARS OF PRACTICE AND ON-SITE EXPERIENCE LEADS TO TOTAL UNDERSTANDING OF MESH INSTALLATIONS AND A HAPPY LIFE FOR BUILDERS.**

We know what builders and trades need to make jobs run smoothly. Our years of experience save builder's time, stress and money during all stages of the installation process.

We know termites and we know building. Our installers, schedulers and supervisors are the best because of their extensive building background and rigorous training in termite protection.

With our decades of experience on-site we've seen every challenge and solved them all.

## **OUR INSTALLATIONS WORK BECAUSE THEY ARE TECHNICALLY SUPERIOR**

---

**ONLY WE HAVE DEVELOPED OVER 100 INSTALLATION SPECIFICATIONS, PROVEN AND TESTED OVER 20 YEARS AND ALWAYS EVOLVING.**

The Termimesh product and installation practices are technically superior to any other mesh option. This is because of our tightly controlled manufacturing standards and highly evolved installation specifications.

We know where to install mesh to ensure ongoing protection of the building. Our specifications and installations cover all vulnerable points and we guarantee that they are termite proof.

We have never taken shortcuts with our installations and never will.

Simply put, our installations work. There is no substitute for on the job experience. Every builder knows that.

## **WE MAKE A PLEDGE OF COMPLETE CONFIDENCE**

---

**ONLY ONE MESH COMPANY MAKES IT, INSTALLS IT AND GUARANTEES IT AND THAT MEANS ONLY ONE COMPANY OFFERS TOTAL PEACE OF MIND.**

The Pledge Guarantee is unique to Termimesh. It gives builders and homeowners the security that can only come from a national company that has been installing and guaranteeing mesh for over 20 years.

For residential construction we provide 10 years on materials and workmanship. For nonresidential, 10 years on materials and 1 year covering the builder's default period. Both can be extended without limit.

The Pledge Guarantee offers unlimited value with no excess for the full period of the guarantee. For further reassurance, it is backed by the independent Termimesh Warranty Fund.

The Pledge Guarantee helps protect our builders and their liability and that's what really counts.
